

REMARKS

The enclosed is responsive to the Examiner's Office Action mailed on August 10, 2005.

At the time the examiner mailed the Final Office Action claims 31-54 were pending. By way of the present response the Applicant has 1) canceled claims 31-54; 2) added new claims 55-68; and 3) argued that newly added independent claims 55 and 62 are patentable over cited references. The Applicant respectfully requests reconsideration of the present application and the allowance of all claims as presented.

The Applicant has canceled claims 31-54 rendering moot the Examiner's rejections in the Office Action mailed on August 10, 2005.
